CLEANING WHIP

OCTOPUS LONG LIFE – IN 2 BASIC COLOURS

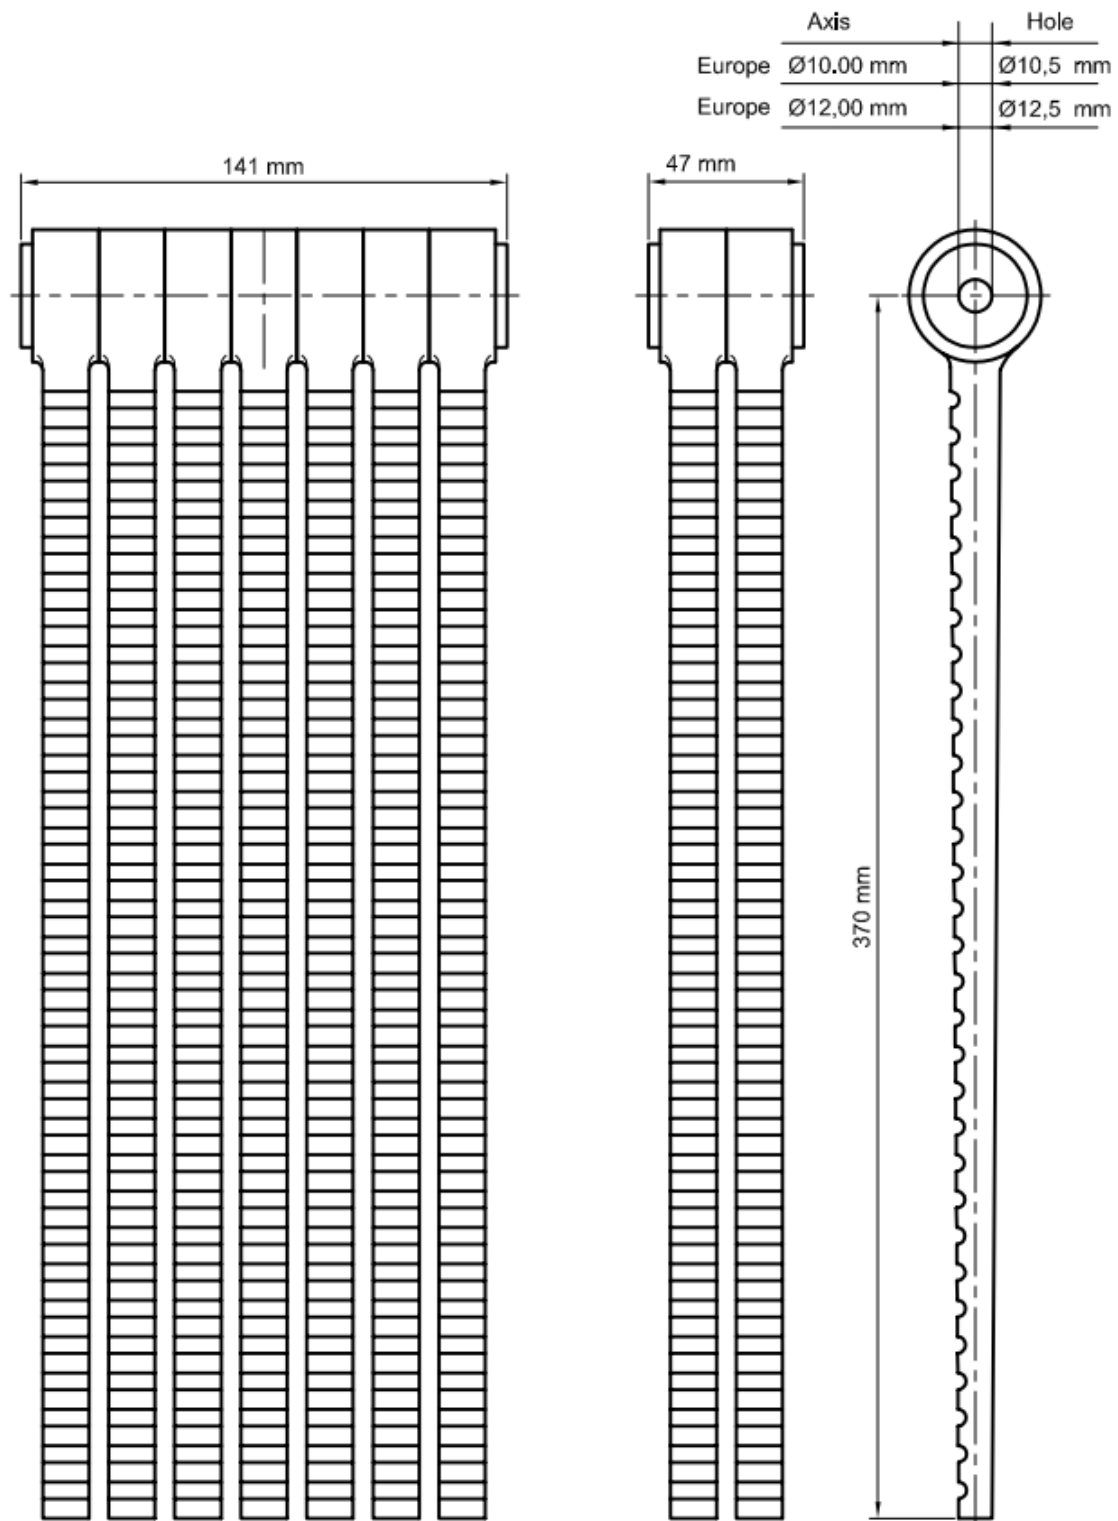

Our Cleaning Whips are produced from a special polymer mixture in traditional Holland Blue and White. The material, developed by ourselves, is extremely abrasion-resistant and leaves no black abrasion stripes on the carcasses. A very high level of meat hygiene is guaranteed.

- 13% larger cleaning area and shorter assembly period than three 2-finger whips.
- Bearing wear-resistant, unbeatable durability
- For shaft diameters from 10 to 12 mm

PREMIUM MATERIAL FOR THE BEST RESULTS

As a leading expert of products for abattoirs we have been developing for years high performance and quality products for small, medium-sized and large abattoir companies. Our product portfolio includes dehairing paddles, cleaning whips and roller hooks which we have developed ourselves. A lot of renowned reference companies from the meat processing industry worldwide are among our satisfied customers.

Part no.	Number of fingers	Dimensions (mm)	Material	Colour	Hole Diameter (mm)
CL-210	2	47 x 370	Polymer	White/Blue	10.5
CL-212	2	47 x 370	Polymer	White/Blue	12.5
CL-710	7	141 x 370	Polymer	White/Blue	10.5
CL-712	7	141 x 370	Polymer	White/Blue	12.5
